

# VIAC wins collective tender „Pillar 3a“

[www.zwei-we.ch](http://www.zwei-we.ch)

Why does the majority of the assets in Pillar 3a portfolios remain uninvested, even though they are the most suitable assets due to their long investment horizon? For one, many investors are unsure which investment strategy to choose. Secondly, the Pillar 3a investment solutions offered are traditionally expensive and rather unsatisfactory.

By means of a collective tender, ZWEI has finally found a good investment solution. With VIAC, the winner offers a digital solution which allows for very cost efficient and broadly diversified investing.

The field of contesters, comprised of asset managers and other financial service providers, was examined and assessed using the ZWEI methodology. The graph below shows the ratings of the final evaluation round. VIAC has won by a landslide. Interested investors can turn to our consultants who will be happy to explain the assessment methodology in more detail and how we arrived at the final result.

VIAC allows investors to choose from pre-defined risk strategies and different variations of portfolio implementations (instrument selection). We are happy to assist you in finding the most suitable strategy for you and accompany the implementation – as part of your broader wealth situation.
